

Clariss Home Page® How to Link to the Video Clip

1. Download the video to your website folder.

2. Type the name of what you would like to call the link.

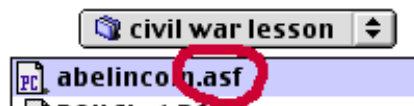

3. Highlight the name and go to the blue link editor button (or **Insert>Link**).

4. Browse your files to find the video (the ending is ".asf").

Select a file to link to

5. Close the link editor window.

6. To test your link, be sure to preview using your "Preview in Browser" button.
